

Underhill Precision Rainmaker Nozzle with Brass High Flow Control Valve and 3/4in MHT x 1in FHT Adapter

RGHN2300CV

Details

The Rainmaker Nozzle is designed for syringe and spot watering turf and hardy landscaping. At 23 GPM flow rate, from soft watering to powerful drenching, the Rainmaker Precision nozzle is designed to fully irrigate without disturbing turf, dirt, seeds, etc., providing a precise solution for hand watering applications. The Rainmaker features solid metal construction to deliver millions of soft uniform water droplets providing a rapid, yet gentle water application over a wide range of flow rates. 23 GPM. Green.

- Solid brass, machined construction
- Emits a solid cone pattern
- Rubber-tipped ends made for commercial use and longevity
- 3/4in FHT inlet can attach directly to a hose or to a high flow control valve
- Unique "fish-mouth" design ensures uniform and even distribution pattern
- Includes brass high flow control valve and on/off switch and 3/4in MHT x 1in FHT hose
- Green

Specifications

Manufacturer	Underhill
Color	Green
Flow Rate	23 gpm
Inlet Size	.75 in
Material	Brass
