*Detail Description: Michelin X Tweel Turf airless radial tires for golf carts and utility carts require no air pressure, so there is no need for spare tires or repair kits. Their unique spoke design helps dampen the ride for enhanced rider comfort when driving over gravel, uneven pavement, and bumps. And, they are designed to provide outstanding lateral stiffness for improved side-hill stability, excellent traction and a long wear life up to 2X longer than a pneumatic golf cart/utility cart tire.:*
