

Aqua Aid Aquifer Pellets - Box/24

RG3504

Details

Aquifer soil surfactant produces a downward and lateral movement of water providing a uniform moisture profile through the soil structure for up to 45 days. Prevents the formation of localized dry spots and increasing water retention in well drained soils. Reduces summer stress and wilt, increases water retention, uniform moisture soil profile, will not burn. No need to water in. Up to 40 acres. 100% Active ingredients.
