

Underhill H2O Maximizer - 8 oz Pellet

RGH20PEL

Details

Increase irrigation and rain efficiency by enhancing plant available water. H2O Maximizer Pellets are a convenient way to improve water infiltration and water holding capacity of soil. Treatment remains active in the soil for 4-6 weeks, then bio-degrades into natural materials. The polymer resin delivers increased plant available water. Use with PelletPro applicator gun. 8 oz. (227gm) pellet.
