

Leemco Saddle - 12 x 2 Threaded Range w/SS Strap

RGLRSST-1204

Details

Leemco saddles are made of durable ductile iron that have a fused epoxy finish specifically designed for high corrosive soils. All hardware and saddle straps are made of 304 stainless steel and the nuts are coated to prevent galling. The saddle gasket is constructed of high grade EPDM rubber for leak proof connections.

Specifications

Manufacturer	Leemco
