

Valve - Brass Angle 3/4 NPT

RGVBM07

Details

Available in sizes from 3/4" to 3" NPT inlet/outlet. Union on outlet side of valve on VBM25 & VBM30 models. Heavy duty cast brass construction. Corrosion resistant. Removable bonnet and internal assembly for easy service and cleaning. Free-rotating seat disc serviceable without removing valve body from the pipe line. Flow control stem with cast brass cross handle for manual valve key. Designed to provide low friction-loss performance. British Pipe Thread available (BS), except VBM07.
