

Spear Head Spade

RP21230

Details

Use 80% less effort when digging through rocky and clay soil, slicing through roots and fibrous plants when transplanting, or cutting through dense, compact areas. This unique shaped, high carbon manganese steel blade with beveled edges from tip to tail, is thicker and harder than regular shovels with an epoxy powder coating to minimize friction and corrosion. Generous forward bent foot rest for comfort and force. Reinforced 40" fiberglass D-Grip handle. Weather resistant.

- Cuts and slices through roots and fibrous plants
- Glides through rocky and dense clay soils
- 80% less digging effort
- The specially shaped spear head has all beveled edges from tip to tail
- Extra thick manganese steel blade
- Forward bent foot rest
- Reinforced fiberglass handle with D-Grip
- Weather resistant

Specifications

Manufacturer	R&R Products
Blade Material	Steel
Handle Color	Yellow
Handle Material	Fiberglass
Head Material	Steel
Length	40 in
