

Tree Tie - Green 500' Spool

RP302500

Details

Staking and guying trees is faster and easier. Manufactured to replace wire and hose. This soft woven polypropylene material features rounded edges to prevent tree bark damage. Strong 600 lb. break strength stands up to fierce winds while providing enough tree sway for the tree to develop trunk strength. Eliminates girdling. Fastens to any stake or anchoring system with knots. 1" wide to reduce scarring on tree cambium. Will not unravel. UV Coated. Easy installation. Green.
