

Alloy Machined Side-Eject Tine - .750MT x 4.500L x .700OD R201430

Details

Alloy Machined Side-Eject tines remove a soil core which quickly exits the side of the tine through a precision machined slot. This slot is designed to avoid "plugging" that can occur using hollow tubular tines (especially the smaller diameters) in heavy soil conditions. R&R manufactures a wide selection of these side-eject tines machined from special high-carbon alloy steel solid bar and heat treated to RC45-48 in our own heat treatment facility. Very popular for the multiple tine holders which fit all greens aerators.

Specifications

Manufacturer	R&R Products
A - Tine Type	Alloy Machined Side-Eject
B - Tine Mounting Dia.	.750 in (19mm)
C - Tine Length	4.5 in (114mm)
D - Tine Tip Outside (Hole) Dia.	.700 in (17.8mm)
E - Tine Tip Inside (Core) Dia.	.450 in (11.4mm)
F - Tine Wall Thickness	.125 in (3.2mm)

Fits Models

Terra Aerator
