

Pro Golf Ball Washer

RP208

Details

A sleek design that's ideally suited for use at each hole. The durable, cast aluminum body and lid are assembled with strong 3/8 inch Teflon-coated set screws that resist corrosion and provide superior grip during installation, plus easy removal. The ball travels in a high-impact plastic spiral cleaning agitator through stiff bristles on a special flexible PVC inner brush designed to avoid deterioration in detergents and water. A towel clip is included at the front of the washer for convenience. Towels and decals are available separately. Personalize each washer with your course logo! The durable 3" outdoor decals match those available for the R&R Tee and Practice Green Markers.

- Durable powder coated paint finish
- Spiral ball cleaning agitator
- PVC inner brush avoids deterioration in detergents
